76.5% less manual PRF creation after Procure Pilot & PIMS	90% automated pharmacy ordering accuracy	71% fewer critical stock incidents
---	--	--

AI automation and digital operations professional in the veterinary and pet-product space. Built and operate **Theoses**, a self-hosted AI agent that runs research, content drafting and repeatable workflows on a VPS. Turns operational needs into practical systems: connected web apps, structured supplier coordination, data-based reporting.

EXPERIENCE

Procurement Officer — STARLiGHT Veterinary Medical Centre, Ampang Dec 2025 – Present

- Research veterinary products, suppliers, pricing and market alternatives to support purchasing decisions; reduced active supplier dependency from 73 to 25 through structured evaluation.
- Built Procure Pilot and PIMS, replacing paper-based workflows with connected web applications — manual PRF creation down 76.5%.
- Automated the pharmacy ordering workflow to 90% accuracy; prepare data-based reports for management.

Procurement / Operations Officer — IMAM Response & Relief Team (IMARET), Selayang Dec 2022 – Dec 2025

- Created a procurement cycle system adopted as the organisation's standard operating procedure.
- Produced inventory-usage, asset-performance and projection insights for project decisions.
- Ran quotation enquiries, supplier comparisons and relationships across static clinics and field projects.

Assistant Pharmacist — BIG Pharmacy Healthcare, Kuala Lumpur Dec 2021 – Nov 2022

Customer product enquiries, stock intake, inventory control and sales reconciliation in daily pharmacy operations.

SELECTED AI PROJECT

Theoses — Self-Hosted AI Work Agent Personal project · Ongoing

Built and operate a VPS-hosted AI agent for research, planning, documentation and workflow automation — hands-on experience with agents, APIs, databases, web apps, Linux deployment and troubleshooting.

SKILLS

AI automation · Content ideation & drafting · Product & competitor research · Reports & data storytelling · Supplier coordination · Customer communication · Microsoft Office & Excel · AutoCount · Web systems & dashboards · Linux VPS & deployment
